It's Me Or The Dog DVD Volume 2 Featuring Victoria Stilwell

Network 10s favourite Doginatrix, Victoria Stilwell, dishes up the discipline and training tips for this second series of problem dogs (or is that problem owners). This fabulous series tackles dog behaviour problems and positive training in an entertaining format.

Stilwell has no magic wand, unlike many whisperers, listeners and trainers that have popped up on the telly in recent years. She examines the problem behaviour and environment in which it was able to thrive in and then modifies the behaviour with her training smarts, restoring order in the entire pack.
